#### **Project Description**

Please provide a description of the applicant's business and a detailed description of the proposed project. Additionally, please include an in depth explanation of how award of the credit will impact the applicant's ability and/or willingness to create new full-time jobs in California that may not otherwise be created by the applicant or any other business in California. (7000 characters max)

Widget Manufacturing, Inc. is a widget manufacturing company located in the city of Anonymous. For the last few years, Widget has experienced consistent growth over time as demand for our product increases. Our manufacturing facility is currently at capacity, and we must expand to a second location in order to meet client's demands

The second facility is expected to cost \$10,000,000 to construct. There will be an additional \$7,660,000 in various manufacturing equipment, vehicles, and computer equipment. We predict the hiring of 40 employees at this location: 30 jobs will be manufacturing workers of varying classifications, and 10 jobs will be management and other executive positions.

For this expansion, Widget is exploring all of its options, including other states in the US. Our clients are located throughout the United States and we do not necessarily have to locate our second facility in California. We have completed an evaluation of options in other states and will provide the details upon request. If given a credit of \$1,100,000 over the 5-year period, Widget Manufacturing is willing to commit to opening its second facility in California.
