

WEBINAR

June 18, 2025
11:30 AM – 12:30 PM PST

About the GO-Biz Renewable Energy Permitting Initiative

In late 2024, GO-Biz kicked off the Renewable Energy Permitting Initiative to assess challenges faced by local jurisdictions in permitting large scale energy projects and develop a toolkit of resources to support process improvements. The final report and toolkit will include best practices and other resources that will help increase transparency and alignment of local jurisdiction permitting processes to reduce barriers for the deployment of energy projects in California.

Overview and Development of the GO-Biz Renewable Energy Permitting Toolkit

As part of our Renewable Energy Permitting Initiative, this webinar will walk through early developments of a permitting guidebook and toolkit to support local authorities.

We will also be sharing the upcoming webinar schedule with additional details on how to get involved in the feedback process.

More about the webinar series

This webinar is the first in a series of five, where we will highlight key topics from the toolkit and guidebook, such as solar, wind, and BESS permitting. We'll showcase our progress and findings throughout these sessions. The finalized schedule and webinar topics will be shared on June 18th.

Contact energyunit@gobiz.ca.gov for information about the permitting initiative or upcoming webinars.
