CREATING A PROFILE

The CalCRG program application must be submitted online via the online portal available at www.calcrg.business.ca.gov¹. Applicants must first create an account by selecting the “Create an Account” button on the login screen as shown below.

The user will then be prompted to create an account and will be asked to enter their name, title, company, phone number(s), and email address. The user must also check the “Human verification” in order to complete the registration process.

Note: Consultants and other authorized representatives should use their own personal information for creating an account. The application allows a single account holder to create, edit, submit and have access to multiple applications.

¹ GO-Biz complies with the Americans with Disabilities Act. If an applicant is unable to complete the online application due to a disability, please contact GO-Biz to request a reasonable accommodation.

Create Account 

For security reasons, GO-Biz requires an access key process each time an applicant logs into their account. Each time the user wishes to log into their account, they must enter their email address in the “Email” field at www.calcr.gov/business.ca.gov and then click on the “Email Key” button. A six-digit access key will be emailed to the applicant’s email address. The user will need to copy the access key from their email and paste or type it into the required text box in order to gain access to their account. A new access key is needed each time a user logs into their account. For security reasons, access codes expire after 30 minutes. If the access code expires prior to the user logging into the account, the user will need to repeat the login process and obtain a new access key.

Log In

To log in, you will need a key emailed to you.

Email

Email Key 

Note: Some email servers with aggressive SPAM/virus protection can delay delivery of the email. If the delay is greater than 30 minutes, the applicant will not be able to log in. There are two possible solutions:

1. The user should ask their employer's IT team to allow emails from CalCRG@gobiz.ca.gov to be immediately delivered and/or add this email address to a "trusted" list; or
2. The user may use an alternative email provider (e.g., Gmail, Yahoo, Hotmail, etc.) that does not have the same delivery delays.

Note: If the access code is not received, make sure that the email being used is the same email address that is associated with the account profile. Also, check spam filters as the email might have been blocked.

Note: A user's profile can be edited at any time by clicking on the account application name in the top right corner of the application and selecting "edit my profile". Changing the email address will change the email address required for logging in.
